RE: Unified Federal Policy for Watersheds

Ladies and Gentlemen:

I strongly oppose the Unified Federal Policy for Watersheds as it will undermine state and tribal authority to implement the Clean Water Act.

I do not understand why this policy is being pushed when litigation is still pending and all land users and property owners have not been notified about the watershed emphasis. The CWA spoke to bodies of water, and now the CWAP will address watersheds. That is a big difference to implement without discussion and appropriate means.

Why are the feds trying to take over our rights through executive order and backhanded means? Where exactly are the feds going with this? What is their ultimate goal and intent? It would seem only to further complicate and even totally negate our ability to use the land.

All of us here at Tri Star Logging protest heartily.

Sincerely yours,

Stephen Reidhead

Owner
